AUGUST

August, thou art a comely matron, Thy golden locks are turning gray, Thy beauty is a revelation, Touching the autumn of decay.

Thy silvery sunshine of the day Gives way to coolness of the night That beautifies thy piercing ray In changing colors of the light.

Reflected in the sky and leaves, Thy passing beauty that is seen Points to the fulness of the sheaves That manifest the life unseen.

But present in the world of time, Creating beauty everywhere, On nature and in thought divine The Master weaves and greets there.

S. J. Bush, Greenford.

VACATION

Kind of weather makes me wish I could steal away an' fish, Bait a hook an', mind at ease, Watch th' sun flit through the trees; Watch th' shadows come an' go, Hear the river's rhythmic flow, Hear each vagrant bird an' bee Flute its restful symphony.

Kind of weather makes me long Jus' t' hum a snatch of song— Jus' t' snatch some old time tune, Remember when life was at its noon; Kind of weather makes a chap Feel he's somewhere on th' map, An' that life is mighty sweet, An' where sky an' river meet.

Kind of weather makes me feel I could wander off an' kneel Where the clover's long an' deep, An' jes lay me down an' sleep; Makes me feel I'd like t' fall Heart an' brain with peace until, Years discarded down th' lane I might romp a boy again.

Kind of weather makes me wish I could get away an' fish, Find some spot beneath th' bough— Omar's "Paradise enjoy"— Watch th' eddies curl an' fret, Jes be happy an' forget— Drinkin' in th' glint an' glee Of th' years that used t' be!

DEATH RATE INCREASING

TOTALS FOR PARALYSIS EPIDEMIC IS 5,333 CASES AND 1,194 DEATHS.

New York, Aug. 9.—The first hint of a possibly impending general quarantine order by the federal government that will keep all children in the city was given by Dr. Charles E. Banks, senior surgeon of the public health service.

"Parents must not take their children out of the city for holiday jaunts," said Dr. Banks. "We do not wish to be unduly harsh in our regulations, but vital danger lies in the indiscriminate passage of children between New York and other communities for brief stays."

The grand totals for the epidemic is 5,333 cases and 1,194 deaths. The mortality rate is gradually rising. It is now dangerously close to 25 per cent.

OUTLAWS NEAR BORDER

BAND OF 350 MEXICANS UNDER FORMER VILLA COLONEL JUST SOUTH OF LINE.

El Paso, Aug. 9.—Nearly 350 outlaws under Mariano Tames, former Villa colonel, are encamped on the Mexican side of the Rio Grande, about 13 miles below Ysleta, Tex., and 12 miles east of here, according to reports to American military headquarters.

His band, it was stated, has been greatly augmented in the last 24 hours by recruiting among the peons and deserters from the Juarez garrison. It is reported to have said he did not intend to raid along the American frontier.

CURES HIS HORSES OF JUMPING

Nags No Longer Try to Emulate Aeroplanes.

A farmer near Oakland, Ore., has hit upon a novel and ingenious use for iron nuts or "taps" employing them to keep his horses from jumping. He had several horses that were regular aeroplanes. They went over the highest rail and barb wire fences like Remus over the earliest walls of Rome.

One day the farmer had an idea. He found about the place several big rusty nuts about 2 inches square. He tied one of these nuts to the foretop of each of the jumping horses. This did the business. They are a meek bunch of nags now. Whenever a horse jumps he ducks his head. His weighted foretop swings out from his forehead. When he lands the nut swings violently back. He soon associates the inevitable blow between the eyes with his jumping and quits.

A man wants everything he can get, a woman wants everything she can't get.

SAYS MIDNIGHT STARTS PERIOD OF BEST SLEEP

A Good Rest Makes Care as Great as Mountains Vanish Over Night

12:00 o'clock midnight.

This should be the hour of soundest sleep. It is claimed by good authority that one hour of sleep at midnight is worth five hours of sleep at any other time.

We go to bed tired in mind and body and if our sleep is good, we arise refreshed and rejuvenated. Even cares that seemed as mountains at night are as nothing in the morning. Truly, good sleep is the repair shop for the body.

Miserable, indeed, is the person who cannot sleep. Sleeplessness weakens the nervous system. It upsets the digestive organs, it influences the blood circulation, and every other function. When a man lies in bed and hears the clock strike one, two, three, four, his nervous system is shattered.

Thousands tell how Tanlac has brought them sound, healthy, refreshing sleep, strengthened their nerves, and given them good appetites.

It makes new rich, vitalizing blood and more nerve force. If you are pale and thin and lack vitality the rapid building up action of Tanlac will surprise you.

Tanlac is being specially introduced in Canfield by F. A. Morris.—adv.

THE THREATENED STRIKE

The Journal once more calls attention to the menace of a general railroad strike and the need of an aroused public opinion which will force roads and workers to settle their differences by negotiation and avert such a catastrophe.

Fully 90 per cent of the railroad workers have voted to strike, if necessary, to secure their demand for an eight-hour day with time and a half for overtime. The eight-hour day ought to be the rule in any industry. It is the question of overtime that furnishes the stumbling block, and The Journal believes that some mutually satisfactory method of reckoning extra hours can be found, if the roads and unions will join in looking for it.

A strike at this time would be a frightful calamity. It would tie up the business of the nation at a time when the tide of business is higher than ever before. It would disorganize American industry just when that industry most needs to be kept going, to meet the world's needs and prepare itself for the change in circumstances that will come after the war. There is no excuse for inflicting any such disaster on the country. Some way of peace must be sought and found.—Chicago Journal.

Cuban Official Tells of Country

HON. GEORGE RENO will bring to our Chautauqua one of the most interesting and instructive lectures ever offered on the Chautauqua platform. Mr. Reno is an American, who has been prominent in official life in Cuba for a number of years.

In his present official position, that of chief of the Cuban Bureau of Information, Mr. Reno has entertained, on behalf of the Cuban Republic, many of

HON. GEORGE RENO And His Interesting Family.

the distinguished citizens of this and other countries, and they prevailed upon him to give to Chautauqua audiences the facts concerning Cuba.

In recent years Cuba has been making a phenomenal growth, and the possibilities of the country, from a commercial and social standpoint, have greatly interested Americans. Mr. Reno is perhaps the best qualified man among all the island's citizens to present the facts concerning his country to the American people. President Menocal recognized that fact officially by granting him a special leave of absence for the purpose.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY, as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.
